Alex Durán

Senior Full Stack Engineer | React, Next.js & E-commerce

Barcelona, Spain • alexdanieldm@gmail.com • linkedin.com/in/alexdanieldm • alexdanieldm.com

Profile

Senior Full Stack Engineer with 4+ years of experience building production web applications and e-commerce platforms using JavaScript/TypeScript, React, Next.js and GraphQL. Experienced in frontend architecture, API integrations, reusable UI systems and internal developer tooling. Owns projects end to end: scoping and estimation, architecture, delivery and release tooling.

Experience

Senior Full Stack Engineer

Joined as Full Stack Developer

One More Agency | OMA • Barcelona, Spain • Hybrid

Jul 2024 – Present

- Owned development and maintenance of a React/Next.js headless commerce storefront, integrating GraphQL APIs and delivering production features.
- Built a transportation MVP with React/TypeScript and React Native, defining data structures and implementing web/mobile interfaces, integrations, authentication, maps and chat.
- Scoped and estimated client projects, breaking down requirements, assigning development tasks and coordinating delivery.
- Architected and built a reusable storefront foundation, defining component structure and core commerce behavior used across client builds.
- Designed and built an internal developer CLI to automate environment synchronization, backups, rollbacks and release workflows.

Junior Full Stack Developer

Sol Inc • Remote

May 2022 – Feb 2024

- Built the serverless purchase flow for annual memberships using AWS Lambda functions, launching a new revenue stream.
- Built reusable Next.js UI components with styled-components and Storybook, consuming GraphQL APIs.
- Refactored key screens for responsive layouts, improving mobile usability.

Skills

Frontend: TypeScript, React, Next.js, Storybook, Tailwind, styled-components, React Native, WCAG
