Alex Durán

Senior Full Stack Engineer | React, Next.js & E-commerce

Barcelona, Spain • alexdanieldm@gmail.com • www.linkedin.com/in/alexdanieldm

Profile

Senior Full Stack Engineer with experience building and maintaining e-commerce and web applications using TypeScript, React, Next.js and Shopify. Skilled in reusable UI components, API integrations and responsive interface development, with a strong focus on maintainable code, documentation, development workflows and practical business outcomes.

Employment History

Senior Full Stack Engineer

Joined as Full Stack Developer

One More Agency | OMA • Barcelona, Spain • Hybrid

Jul 2024 - Present

- Develop and maintain e-commerce experiences across Shopify theme and headless architectures using Liquid, JavaScript, TypeScript, React and Next.js.
- Built a transportation MVP with React/TypeScript and React Native, defining data structures and implementing web/mobile interfaces, integrations, authentication, maps and chat.
- Served as the primary developer maintaining and extending an existing Next.js storefront, integrated with Shopify through GraphQL APIs.
- Led development of OMA's internal Shopify scaffold theme, defining architecture and building reusable components for client storefronts.
- Designed and built an internal CLI for QA synchronization, theme backups, rollbacks and releases, standardizing agency development workflows.

Junior Full Stack Developer

Sol Inc • Remote

May 2022 – Feb 2024

- Implemented an AWS Lambda function for annual membership purchases, enabling a new monetization flow.
- Built reusable Next.js UI components with styled-components and Storybook, integrating data through GraphQL.
- Refactored screens for responsiveness and improved usability on mobile devices.
